

WISDOM WALK

MEXICO

A JOURNEY OF LIVING TRADITIONS

12-20 NOVEMBER 2026

MEXICO CITY . PACIFIC . CARIBBEAN

www.wisdomwalk.earth

Mexico is a land shaped by many worlds.

For nine days, we will move from the layered streets of Mexico City to the ancient landscape of Teotihuacan, from the Pacific coast of Mazunte to the cenotes and turquoise waters of Yucatán.

We will walk through cities, sit in ceremony, move, rest, dance, share meals and spend time with the people and traditions of this land. We stay long enough to notice what moves in us.

We walk the land.

We let the land walk us.

MEXICO CITY, TEOTIHUACAN

We begin in Mexico City with a visit to the National Museum of Anthropology and time to explore the city.

The next morning, we head to Teotihuacan before flying toward the Pacific coast.

PACIFIC: OAXACA, MAZUNTE

In Mazunte, the pace slows. We gather in circle, enter the temazcal, rest, receive bodywork, move, dance, sit in ceremony and let the ocean hold the rhythm of these days.

CARIBBEAN: CHICHEN ITZA, CENOTES, ISLA MUJERES

The final part of the journey opens toward the waters of Yucatán: cenotes, Chichén Itzá, Isla Mujeres and the Caribbean light before we say goodbye.

HOW WE WALK

Along the way, we return to a few simple practices that help us pay attention, listen more closely and stay with what the journey brings.

Presence

Morning meditations and moments of stillness invite us to notice where our attention goes and return to what is here.

Embodiment

Through **movement, breath and embodied exploration**, we listen beyond the thinking mind and make space for what the body already knows.

Ceremony

Temazcal, plant medicine and cacao ceremonies mark different thresholds of the journey, held with intention and guided by experienced practitioners.

Integration

Circles, reflection and shared conversations give us time to meet what has opened, put experience into words and carry it forward.
